

## GEO-1325F

This entry-level swim spa is our most popular model under our Fitness Swim Spas line. Fully enjoy your workout using the two river jets which have on/off air valves to adjust from a warm-up level workout to full fitness level underwater exercise. While you use the fitness handlebars and anchors, you will notice jets at your feet helping to soothe your soles. The 1325 has bench seating along the tub for your friends and family to join you as you workout.
